< Experience />

Critical TechWorks (BMW Group Partner)

Scrum Knight — Feb 2023 – Present

Software developer, coach, trainer, and agile enthusiast: Involved in product development as a member of the DevOps team while also holding the Scrum Master accountability. My primary mission is to ensure that the team follows agile values and principles, maintaining a relentless focus on productivity and continuous improvement.

Software Engineer — Nov 2020 – Fev 2023

Develop and improve BMW products in a cross-functional team: working closely with product managers, product owners, stakeholders and designers to understand user requirements and translate them into effective frontend solutions that meet efficiency, scalability, and maintainable code that adheres to best practices and coding standards.

Contribute as a mentor and trainer of CTW Fullstack Academy on the Frontend module.

Freelancer — Feb 2020 – Nov 2020
Frontend Developer

Developed and improved products:
- **Luminous, Brisa, Zaask, Dreamwise** – Improving and create new features for their platforms;
- **BHealth** – Build a backoffice from scratch for medical services;
- **PaySimplex** – Code refactorization to the lastest technologies on their platforms and new features;
- **Formaspot** – Build a website for their future platform from scratch;

Hypnotic Digital Agency — Jan 2019 – Apr 2020
Frontend Developer

Development of interfaces from scratch on a modular approach, in a team environment with the scrum framework.

Some projects:
- **Continente | Baby shower** – Build a new promotion website page; **Crédito Agricola Empresas** – Improving and create new features for their business interface;
- **Caixa Geral de Depósitos** – Build a loan interface from scratch;
- **Santa Casa da Misericórdia de Lisboa** – Build a new website with Vue.js in the frontend, and wordpress as a CMS with GraphQL.

PaySimplex — Sep 2017 – Dec 2018
Design & Web Developer

Responsible for the whole frontend development and some UX/UI.
I developed websites from scratch with constant communication with Backend team as well as dealing with clients feedbacks.
